Gross area means the sum of the floor areas computed by measuring from the normal outside face of exterior walls, disregarding architectural setbacks or projections, cornices, pilasters, and buttresses, and including all stories or areas which have floor surfaces and a clear standing headroom of 6½ feet or more. Gross area includes basements (except unexcavated portions), attics, garages, roofed porches, mezzanines, loading platforms, shipping platforms, penthouses, mechanical equipment floors, lobbies, and corridors. Suspended postal lookout galleries are not included. When computing occupiable area separated by partitions, measurements are taken from the center line of such partitions.
